

## ERASMUS + PROJECT:

## CONFLICT MANAGEMENT IN EUROPEAN SCHOOLS

# #STOPCHILDABUSE

To commemorate **the international day against violence** our 8<sup>th</sup> graders have dived into the topic of domestic violence.

They have researched topics such as domestic violence, violence against women and child abuse and learnt some very disturbing facts.

**Did you know that:**

*-Globally, a woman is more often a victim of domestic violence, although of course a man can also be a victim*

*-That every 4 hours in Mexico one woman die because of sexual violence.*

*-A mere 25% of all the domestic physical assaults come to light. It gets worse when it comes to rape. Only 20% report it. When it comes to stalking, only 50% choose to do something about it.*

*-Incest, or sexual contact between a related adult and a child, is one form of familial sexual violence.*

*-The most common type of violence is economic violence.*

*-Among victims who are still living with their perpetrators high amounts of stress, fear, and anxiety are commonly reported?*

After getting all the information the students chose to take action and raise awareness about this often hidden problem.

They used social media to spread the word and here are their final works of art:

25.11

#STOPVIOLENCEAGAINSTWOMEN

**1 of 3 women experienced violence**

End Violence against Women

16-MALE

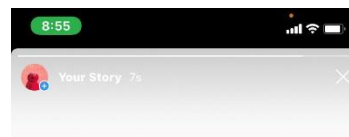

It is easier to build up a good child than it is an adult. Stop the abuse!

The pain you inflict will cause much conflict

**There's no excuse for child abuse**

You have the power to create a better future. Treat Children Well.

If a child says Im Scared Adults should believe them!

stop domestic violence!
